1	Pi	2
2	Delta	3
3	Lorem Ipsum	4

1 Pi

$$\pi = 3.141592653589793238462643383$$

2 Delta

Δ

3 Lorem Ipsum

This will be random blabber, just because I want to see how good LaTeX is in Vim. Just for test purposes I will basically write a paragraph of nothing, including my intention for writing it and more unimportant things. I know pi to 27 digits. These are three point one four one five nine two six five three five eight nine seven nine three two three eight four six two six four three three eight three.
